WMS edit 1500 governs acceptable combinations of TA individual reason codes (screen 3) and individual disposition status codes (screen 5). This edit has been modified in the following two ways: (1) reason codes F76, M76, M97, N49, N50, W35, W44 and W45, previously used primarily with status code 08, now require status code 10, Inactive – Sanctioned Incremental; and (2) entry of reason codes in combination with statuses 07, active, and 10 will be more precisely controlled. Workers may refer to the attached chart as a guide to acceptable reason code and status code combinations.

Correct Combinations of TA Individual Reason Codes and Individual Disposition Status Codes
