- Error **0995**, requiring a manual notice for PA cases with TEAP income, is now void. Effective 6/21, districts will be able to send CNS notices to TEAP cases.

- **1389** is a new edit that prohibits worker entry of employability codes 45 and 46. These codes are system generated as a result of the creation of an employment waiver within the DV subsystem. This edit only applies to TA case types. The error message is: INDIV EMPLOYABILITY CODE MAY NOT BE DATA ENTERED – FATAL.

- **1390** is also new. It requires that an employability code of 45 or 46 be changed to another value when a DV employment waiver expires or is deleted. This pertains to TA cases during 05-08 transactions. The error message is: MUST CHANGE EMPLOYABILITY CODE – WAIVER HAS EXPIRED.
