Increase of Attestor Coverage Due to the Removal of the Resource Test

702/U0204 Change RVI 3 to 9 – No Spenddown

This is a one-time notice being systemically sent to all recipients who are being automatically converted from an RVI 3 to an RVI 9. The reason code cannot be worker entered.

The language for this notice informs recipients of an increase in their Medicaid service package. Previously, because they did not document resources, coverage was limited. Starting January 1, 2010, resources are no longer counted unless the recipient is 65 years of age or older, certified blind or certified disabled. With this increase, the recipient will be covered for all covered care and services.

703/U0202 Change RVI 3 to 9 - Spenddown

This is a one-time notice being systemically sent to all recipients who are being automatically converted from an RVI 3 to an RVI 9. The reason code cannot be worker entered.

The language for this notice informs recipients of an increase in his/her Medicaid service package to all covered outpatient care and service after the spenddown obligation has been met. Previously, because they did not document resources, coverage was limited after the recipient met his/her spenddown. Starting January 1, 2010, resources are no longer counted unless the recipient is 65 years of age or older, certified blind or certified disabled. After spenddown is met, the recipient will be covered for all outpatient care and services.
