Upstate CNS Changes

Section I: Language Change to W3H

Effective 7/16/18, Upstate reason code W3H "MAGI Individual Transition Medicaid to NY State of Health" was changed to clarify that certain individuals need to renew on NYSoH, and certain individuals will renew through the local department of social services and remain on WMS. A heading of "Notice of Recertification for Medicaid" was added to the beginning of the notice. The following informational sections were added either to separate existing language or for new language:

- What happens next?
- About NY State of Health
- Please Tell Us Right Away
- Legal Reference
- Accommodations
- Notice of Nondiscrimination Policy
- HIPPA Privacy Notice

The informational language included makes the CNS notice consistent with the NYSoH notice.
